SOLID WASTE DISPOSAL SITE SURVEY

Entity Name and Address ~~And Registration No~~ Solid Waste Reg. No. 30002
American Petrofina Company of Texas
P.O. Box 849
Port Arthur, Texas 77640

Exact Location (include map):
Plant: Northwest corner of Hw 87 and FM 366 and northwest of the
City of Groves (Jefferson Co.)
Landfarm: On the northwest edge of property

Affected Area (size in feet, yards, acres, etc.):
178,000 square yards (1,000 ft. by 1,600 ft.)
See map.

Type Material Stored or Disposed (liquid, drums, etc., including chemical
makeup if possible):

Oil sludge (see entity file for laboratory analysis of sludge
content- letter from company to TWQB, on 10/16/75)

Condition of Site (include any environmental hazards, if any):
On Clarence Moritz and Victor Bateman, Jefferson Co.
Environmental Control, inspected the site and found it to be exception-
ally well kept.

Possible Impact on Surface or Ground Water (if it can be determined):
Ground: Minimum distance between water table and bottom of disposal
site estimated to be 16 ft. of clay (Beaumont Clay Formation)
Surface: Due to flood levee between landfarm and the Neches River
surface water should not be effected.

Comments (any other pertinent information including a representative photo):
Much information on this site in the American Petrofina entity
file, including a TWQB Industrial Solid Waste Disposal Site
Inspection Report- 12/15/75.
